

How to set up dayparting on the LE Control Site.

What is Dayparting?

You can schedule different days and even different times during the day that you'd like a music channel to be playing. No more having to constantly be going to the receiver to change the channel.

Go to: www.noccontrol.muzak.com

Call our office if you do not know your login id and password.

From here, you'll see a screen like this....

You'll want to check the **edit** box under daypart schedule. Then click the **submit** button.

On the next screen, all of the music genres will be checked, if there are any kinds of genres you do not want to ever play, uncheck the box. Then, click the **continue** button.

On the next screen, all of the boxes will be empty. You can select the days, times & music genres you want to play. I have made up an example for you below.....feel free to schedule it any way you want.
